| Pounds of Fun.

About Us

| Who are **We?**

Pound Games is a small, independent game studio crafting hybrid-casual puzzle games with playful mechanics and polished visuals.

Founded in 2025, our team is passionate about building engaging, test-ready prototypes and iterating fast. We focus on simplicity, creativity, artistry, and market-fit ideas.

Whether it's bridges made of blocks or logic-based challenges, we turn compact ideas into fun gameplay loops — one prototype at a time.

Our Team

Meet the Team.

Mission

| Our Approach

-  **Rapid Prototyping:**
Develop testable prototypes in **2-3 weeks**
-  **Market-Focused Development:**
Iterate **based on player** feedback.
-  **Quality Visual Design:**
Our artists work in sync from **concept to final product**, creating a production process that saves time and guarantees **visual consistency**.
-  **Experienced Team:**
An experienced team that has worked with **different teams** in the game industry.

| Cake Sorting

Cake
Sorting

| Concept

A satisfying **stacking puzzle** where you sort cake layers **by color** to craft perfect pastries.

Core Gameplay

Tap to transfer cake layers and sort them **by color**. Build perfect cakes by **stacking identical layers**.

Unique Selling Points

-  A tasty twist on the **classic sorting mechanic**.
-  Smooth animations and vibrant visuals for a **satisfying user experience**.
-  Simple to **play**, challenging to **master**.

Cake Sorting

Market Potential & References

- Proven logic of liquid sort puzzles with food-themed twist
- Similar successful titles: Sort It 3D, Cake Sort Puzzle, Nut Sort: Color Sorting Game
- Validated market demand through successful competitor titles and player feedback
- Target audience: Casual players(16-45y) who enjoy relaxing, colorful gameplay

Development Status & Roadmap

- Current Status :
 - Prototype complete and test-ready
- Planned Features :
 - Playable vertical ad available
 - More levels and special events
 - Hybrid revenue model combining ads and IAPs (special themes, hints, cosmetic items and power-ups)

| KeyCap Jam

| KeyCap
Jam

| Concept

A casual 2D puzzle game where players place keyboard buttons in matching slots to complete levels, featuring automatic movement and strategic placement.

| Core Gameplay

A strategic 2D slot-matching puzzle game where players tap to place buttons in matching slots, with automatic movement mechanics and combo rewards for strategic placements, leading to level completion

| Unique Selling Points

- Satisfying automatic movement
- Dark/Light Mode options
- Simple yet engaging gameplay
- Easy to learn, satisfying to master
- Clean and colorful 2D visual style for a smooth player experience

KeyCap Jam

Market Potential & References

- Perfect for hybrid-casual/puzzle players
- Similar successful titles: Coffee Craze - Sorting Game, Block Puzzle Daily Blast
- Target audience: Hybrid-casual puzzle players(12-50y) who enjoy relaxing, colorful gameplay
- High retention potential

Development Status & Roadmap

- Current Status :
 - Prototype complete and test-ready
- Planned Features :
 - Polish animations
 - Adding tutorial
 - IAPs
 - Level variations

| Dice Blast

| Dice Blast

| Concept

A strategic grid-based puzzle game where players match dice faces to complete levels under time pressure.

Dice Blast

Core Gameplay

Move dice with **swipe mechanic** on a grid to **match same-colored** with the side of the dice with number 6.

Unique Selling Points

- Strategic depth with **time pressure**
- Progressive difficulty with **new obstacles**
- Power-ups** and special abilities
- Innovative **dice-matching** mechanics

Dice Blast

Market Potential & References

- Unique twist on grid based and puzzle genres with strategic depth
- Similar successful titles (For art style): Color Block Jam
- Target audience: Casual and strategic players (16-45) who enjoy puzzle games with tactical elements

Development Status & Roadmap

- Current Status :
 - Prototype complete and test-ready
- Planned Features :
 - Playable vertical ad available
 - Difficulty/Level balance
 - Planned hybrid revenue model combining ads and IAPs (special themes, hints, cosmetic items and power-ups)

| Merge aHead

Merge
aHead

| Concept

Merge aHead is a drop-merge casual game where players tap to release quirky heads that combine upon contact, creating satisfying chain reactions and engaging progression.

Core Gameplay

Based on [tap-to-drop](#) or [drag-and-drop](#) mechanics, allowing players to choose where to release each piece for [strategic merging](#).

Unique Selling Points

- [Charming](#) character designs
- Satisfying and popular [merge mechanics](#)
- [High retention](#) potential
- Strategic depth with [simple](#) controls

Merge aHead

Market Potential & References

- Popular drop-merge genre
- Similar successful titles: Fruit Drop: Merge Game, Fruit Merge: Juicy Drop Game
- Target audience: Casual puzzle players(12-45y) who enjoy relaxing, colorful gameplay
- High retention potential

Development Status & Roadmap

- Current Status :
 - Prototype complete and test-ready
- Planned Features :
 - Skin customization
 - Adding background variations and subtle juice
 - Brand collabration

| What's Next

July
2025

- CPI/test processes of the first 4 games
- Production pipeline established
- Pitch deck & investment docs initiated (First Investment Goal : 200.000 USD)

August
2025

- CPI tests launched and analyzed
- 2 prototypes/month production starts
- Investment presentations finalized
- First investor meetings begin

September
2025

- Iteration on top-performing game
- Team expansion planning
- Active investor negotiations

October
2025

- Soft launch prep for top title
- 1-2 new team members onboarded

November
2025

- Scaling to 3 prototypes/month
- Soft launch live or ready
- 70-100% of first investment goal reached

December
2025

- Global launch prep begins
- Investment round closed
- Phase 2 roadmap initiated

What Sets Us Apart

| Our Strength

Technically Strong & Multidisciplinary Team:

We're a young team of developers and artists — **all with computer engineering backgrounds**, blending creative and technical thinking.

In-House Visual Production:

With **2 dedicated artists** on the team, all visual assets and UI components are **custom-built** for each prototype, allowing us to maintain a consistent and **high-quality visual identity**.

What Sets Us Apart

| Our Strength

Consistent Production Pipeline:

We've built a **stable prototyping system** — currently producing **2–3** hybrid puzzle games per month.

Adaptable & Open to Feedback:

We **quickly iterate** on gameplay, visuals, and monetization based on **publisher input** or **test results**.

| What We're Looking for?

Testing & Publishing Infrastructure:

Support with CPI/retention testing, ad creatives, and launch planning.

Game & Level Design Mentorship:

Guidance to strengthen our design decisions and improve gameplay depth.

| What We're Looking for?

Funding Support:

Financial investment to **accelerate development** and **increase our production capacity**.

Iterative Feedback & Collaboration:

Partner-driven insights to help us **polish prototypes** and grow promising concepts into **successful games**.

Let's Build Together

| We'd Love to Tell You **More!**
